

Retrospective

Learning Outcomes

New Learnings :)	Votes
Software Development Process flow	4
Differnt API calls	3
Time management	2
Project Estimation(though we were not so perfect) but we learnt how things work in real world	2

What Went Well :)	Votes
Splitting the tasks into smaller tasks	4
Coordination among team members	4
Priorities were quite clear	3
Fixed time for the deliverables	2
Time Management	1

What Didn't go Well :\	Votes
Due to different class schedules daily scrum was not possible sometimes	4
we underestimated many tasks	4
Some of the stories were very big that took more time than expected	4
had to catch-up a lot during the reading break	2

Improvements (For future)	Votes
Clarity on the requirements in the early phases only	4
sometime we had to work for long hours to get the things done.	2
